SweetColors

Coloring your sweet things in life

You can dye your baked goods and sweets in several different ways. Here, we'll show you which of our various options is best for what.

Food coloring

Thin dye, also called candy dye, that is excellent for adding to liquids, such as icing and sweet dough. Available in 7 colors.

DYE CANDY DOUGH

Dust food color

A powder that results in bright, clear colors. Perfect for dyeing chocolate. To be able to paint on sugarpaste, blend the powder with clear alcohol first. Available in 7 colors.
