INSTRUCTIONS INSIDE

Miniature worlds

Making sweet little worlds and landscapes with our miniature kit as a starting point is a super fun activity for the whole family to do together. Here, we've made three different mini landscapes in various styles with adorable residents. In addition to the miniature kit, we used wooden bodies, felt, textiles, Fimo clay and hobby paint. Feel free to add a few little plants and flowers – the perfect finishing touch!

You need a glue gun, brushes and a sturdy pair of scissors to cut the wooden sticks.

Tips!

It is easiest to draw eyes on the animals with a thin, black waterproof pen (such as 652682).

If you want the wooden details to have a stained surface, then dilute the paint with a little water.

BASIC MATERIALS

WOODEN MINIATURE KIT

102274 = 147 pieces.

102011 = 57 pieces
