

Soft fabric hearts and stars

You need:

Fabric 30x15 cm/figure

Yarn and buttons for decoration

Wadding approx. 3 g/figure

Method:

Divide the fabric into two 15x15 cm pieces and place them right side towards right side. Pin them together to prevent them from slipping apart as you sew.

Trace a star or heart on the fabric.

Sew along the traced line almost all the way around, but leave an opening a few cm wide so that you can turn the figure right side out.

Cut around the figure 1 cm from the seam.

Cut small notches in the seam allowance so the figure is even when turned right side out.

Turn right side out and stuff with wadding.

Sew the opening together.

Decorate your hearts and stars. We sewed a blanket stitch around one of the stars and crocheted a circle with red cotton yarn on one of the hearts. On one figure, we sewed a button to the middle.

Thread a piece of yarn through the top of each figure and tie to create a loop as a hanger.
