 INSTRUCTIONS

Cosy cushions

Add style to your home with cushions in fresh new colours. One lovely detail is to make yarn balls and attach them to the corners of the cushion. They're easy to make with a yarn ball tool (see item no. 714013).

Cushion with wedges 47x31 cm

You need:

Fabric piece 50x70 cm
Bugs & dragonflies (305272)
Fabric piece 50x70 cm
New dot green (305266)
Zipper white approx. 45 cm
(982345)

Method:

Cut out two rectangles (see measurements in image 1) and cut them in half diagonally. Place two triangles with different patterns together (right side facing right side) and sew them together to form two new rectangular pieces (see image 2). Iron the seams. Sew on the zipper and finish the cushion cover according to the instructions for "Cushions with zipper".

Cushions with zipper

You need:

For a cushion cover measuring 48x48 cm, you need two 50x52 cm fabric pieces, and for a cushion cover measuring 38x38 cm, you need two 40x42 cm fabric pieces.

We used the fabrics Seedpod green (305256) and Folklore green (305265). A 48x48 cm cushion requires a zipper that is 45 cm long (982347), and a 38x38 cm cushion requires a zipper that is 30 cm long.

Optional:

Yarn ball tool (714013)
Yarn Alafosslopi green (323084), 40 g.

Method:

Measure your cushion and add 2 cm at the bottom edge and a 1 cm seam allowance around the entire cushion. Cut two fabric pieces with the same dimensions. Example: For a cushion measuring 48x48 cm, cut out two pieces measuring 50x52 cm.

Place the fabric pieces right side facing right side and sew a 3–5 cm long seam on either side, 2 cm from the bottom edge (image 1).

Press the seams apart along the entire edge and iron. You now have two folded edges facing one another, with an opening in the middle. Cut the zipper a few cm longer than the opening.

Pin the zipper to the inside of the cushion cover so that the front sticks out slightly at the opening. Sew on the zipper from the inside/wrong side, as seen in image 2, and secure it a bit extra at the ends. Make sure you do not sew the slider by moving it as you sew.

Leave an opening in the zipper. Place the fabric pieces together, right side facing right side, and sew the remaining three sides (image 3). Cut off the corners and turn the cushion cover right side out.
